## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

**1. Claims 22 and 23 were inadvertently included in the last rejection of claims 1-25 when they should have been included in the non-elected claims, namely claims 26-32. The corrected non-elected claims that should have been withdrawn are 22, 23 and 26-32.**

**Claim Rejections - 35 USC § 102**

**2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:**

**A person shall be entitled to a patent unless –**

**(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.**

**Claims 1-21, 24 and 25 are rejected under 35 U.S.C. 102(e) as being anticipated by Hartman et al, Everaets et al, Markhlouf et al Gehlsen et al or EP 0717091.**

**3. The Dr. Manfre CD-ROM part of the Declaration has been considered and does not overcome the references of record in that the instant claims in the case disclose the claimed composition since contrary to applicants remarks the references all show expandable**

**Art Unit: 1711**

**microcapsules containing volatile blowing agents which when heated to their softening point do expand said microcapsules to release a gas and would inherently have some of an impact on the adhesive properties of the matrix adhesive at the interface where the composition is applied. The Declarations do not disclose a side by side of the matrices containing the expandable microspheres of the prior art references with their optimum proportions of microspheres being heated to the same temperatures. The Declaration merely alleges that the prior art microspheres being utilized in the experiment to contrast with the allegedly claimed microspheres are being tested without being in a matrix.**

**4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).**

**A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of**

**Art Unit: 1711**

**this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.**

**1. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).**
